● Wake & Shake Light   ● Power supply unit   ● This instructions guide ● 1 Shaker

Signs and symbols

The following symbols appear in the instructions for use and on the battery door.

⚠ WARNING :   Warning instruction indicating a risk of injury or damage to health.

⚠ IMPORTANT : Safety note indicating possible damage to the device/ accessory.

ⓘ NOTE :   Note on important information.

1. Safety notes

⚠ WARNING

● Only operate the device with the power supply unit provided and the mains voltage specified on the power supply unit.
● Do not operate the device if it is visibly damaged.
● In the event of defects or operational faults, switch the device off immediately and disconnect it from the mains socket.
● Do not pull on the mains cable or on the device to disconnect the power supply unit from the socket.
● Never plug in or unplug the power supply unit when you have wet hands.
● Never hold or carry the device by the mains cable.
● Keep packaging material away from children (risk of suffocation).
● Arrange the mains cable so that no-one will trip over it.
● Never use the device in proximity to moisture.

1

2. Intended use

The Wake-up Light wakes you from sleep in a gentle and natural manner. The LED light gradually becomes brighter like a rising sun, allowing your eyes to slowly become accustomed to the light conditions and your body to gently prepare itself for waking up. The light intensity can be set to your personal preferences. Along with the simulated sunrise, you can set an acoustic alarm to help you wake up. Choose between the radio, a beep or five natural sounds or you can select shaker vibration. The Wake-up Light provides a rested and pleasant start to your day.

3. Device functions:

● Clock display
● Wake-up function with simulated sunrises and alarm
● Two alarms selection Simulated sunrise
● Radio

● 5 natural sounds
● Shaker vibrations Goodnight function
● LED light can be used as a lamp
● Mood light function.
● USB Smart Phone charger.
● MP3 Input.

⚠ WARNING

● The device is only intended for the purpose described in these instructions for use. The manufacturer is not liable for damage resulting from improper or careless use.
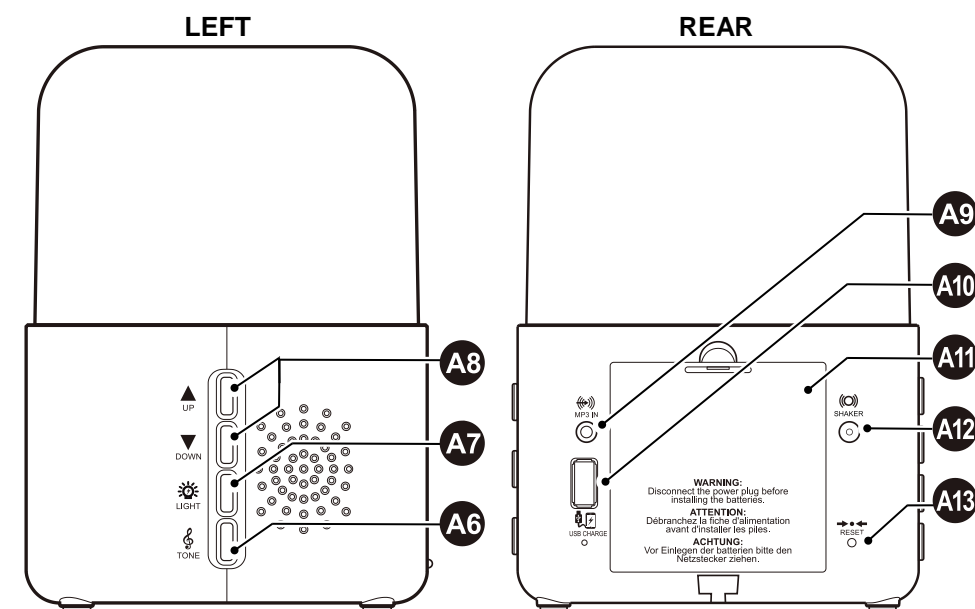

4. Initial use

● Remove the packaging material.
● Check that all parts listed are present.
● Check the device, mains plug and cable for damage. Place the device on a firm, even surface.
● Position the device approx, 40 cm from your head.
● Remove the battery compartment cover on the rear of the device and insert the 4 x AA batteries with corrected polarity battery symbol on compartment. The battery supplies power to the device in the event of a power failure and is not intended to be used as a permanent power supply.
● Plug the power supply connector into the power supply socket on the underside of the device.
● Insert the main plug into a suitable socket. The time will display and you can set the hour format.

ⓘ NOTE: All settings will go back to normal time mode after 6 seconds, press the TONE button to exit if you want to exit the settings.
